Road Report- Rodney Hoyt & Architect Andrew LaRosa Town Garage Discussion

McPhetres discusses our ideas for a Town Garage. We are unsure if we want to do a wood or metal building. We are looking at four bays. McPhetres asks how we start this process. LaRosa introduces himself and his background. The first step will be to look at the location and determine what type of building will suit it best. In previous garages he worked in they had a radiant floor. LaRosa asks what our schedule is on this build. McPhetres states in the next five years but we wanted to make sure we understood where to start. Hoyt asks how much of the budget would be for the plan. LaRosa states it would be about 11-12% of the budget. LaRosa can get an outline for an idea of what he sees.

Town Road and Bridge Standards Adoption

Maryann Caron discusses the Road and Bridge Standards with the Selectboard and Road Foreman. McPhetres makes a motion to sign the Town Road and Bridge Standards. All aye. So moved. The Selectboard then sign the annual financial plan. We have received an extension for our grant for the Flint Bridge. Caron gives updates on the MERP grant work.
